Respected Sir,

I am pleased to inform you that, I have completed developing the modular content for e- learning delivery process in the Learning Management System under the College with Potential for Excellence (CPE) scheme for the Department of Geography of your college.

I have tried to incorporate the significant components of the undergraduate Geography syllabus keeping the needs of students and teachers in mind.

I am submitting 13 modules as listed below:

UNIT NO	TOPIC
1	Isostasy: Models of Airy, Pratt, and
2	Plate Tectonics as a unified theory of global tectonics, stresses and landforms at plate margins and hotspot
3	Folds and Faults- origin and types
4	Map Projection: Basic Concepts
5	Map Projection: Classification and types
6	Discrete and continuous data, population and samples, scales of measurement (nominal, ordinal, interval and ratio)
7	Sampling: Need, types, significance, and methods of random sampling
8	Central tendency: Mean, median, mode and partition values
9	Measures of dispersion range, mean deviation, standard deviation and coefficient of variation
10	Association and Correlation: Product moment correlation and rank correlation
11	Regression: Linear and non- linear
12	Time series analysis: Moving average
13	Hypothesis testing: Chi square test and T- test

Thanking you,

Yours' truly,

Dr. Srabanti Bhattacharya
